

Parent Involvement Plan
2012-2013

Our Goal: By the end of school year 2012-13, 95% of responding families will indicate a sense of belonging.

In order to achieve this goal, we will:

- Increase positive interactions with families
- Make positive phone calls home to build relationships
- Have Family nights
- Increase family engagement with African-American and Latino families
- Conduct a family belonging survey
- Develop a Facebook page to further improve communication with families.
- Implement a new parent group, "Parents as our Partners"
- Seek informal feedback from families at school events
- Train a cohort of teachers on culturally sensitive practices using NUA strategies.
- Improve communication about future events through instant messaging, more school announcements, and ensure communication through the languages families speak
